Junior Cloud / DevOps Engineer with hands-on experience in AWS, Linux systems, CI/CD pipelines, Docker, and IaC. Experienced in infrastructure setup, automation, and production support. Strong interest in cloud platforms, Linux administration, and continuous improvement.

EDUCATION

Istanbul Technical University, Istanbul | *Physics Engineering* **2019-2024**
- GPA: 2.7/4

EXPERIENCE

Jr. Cloud and Platform Engineer **November 2025 - April 2026**
Sufle *Istanbul, Turkey*
- Managed and monitored cloud infrastructure, supporting daily operations and system availability.
- Built and configured end-to-end infrastructure including servers, networking, deployments, and monitoring.
- Built and improved CI/CD pipelines using GitHub Actions for automated build and deployment processes.
- Supported AWS services such as ECS, ECR, EC2, IAM, CloudWatch, and networking components.
- Used Terraform / Terragrunt for infrastructure provisioning, updates, and environment management.
- Contributed to system migrations, server setup, and platform improvement initiatives.

DevOps Intern **June 2025 - Sep 2025**
NG Software *Istanbul, Turkey*
- Worked in Linux-based environments (Ubuntu, RHEL), gaining hands-on experience in system operations and troubleshooting.
- Used **Docker** to run applications in containers and make deployment easier.
- Created CI/CD pipelines with **GitHub Actions** to automate build and deployment steps.
- Built virtual machines with **VMware**, installed **Ubuntu**, and migrated old systems to the new setup.

IT Project Management Intern **Sep 2023 – June 2024**
BSH Hausgeräte GmbH *Istanbul, Turkey*
- Assisted in managing IT infrastructure projects and coordinated cross-functional teams.
- Gained experience in server management, migration strategies, and IT governance
